Twenty four per cent of the girls are enrolled in both Singing and Dancing classes together. The number of girls enrolled in only Singing classes is two hundred per cent of the boys enrolled in the same. One-thirteenth of the boys are enrolled in all the three classes together. The ratio of boys enrolled in Dancing and Painting classes together to the girls enrolled in the same is 2:1. Ten per cent of the girls are enrolled in only Dancing classes whereas eight per cent of the girls are enrolled in both Dancing and Painting classes together. The remaining girls are enrolled in all the three classes together. The number of boys enrolled in Singing and dancing classes together is fifty per cent of the number of girls enrolled in the same. The remaining boys are enrolled in only Painting classes. Number of boys enrolled in only dancing is same as those of girls enrolled in singing.

6. What is the total number of boys who are enrolled in Dancing?

- 1) 318 2) 364 3) 292 4) 434 5) None of these

7. Total number of girls enrolled in Singing is **approximately** what per cent of the total number of students in the school?

- 1) 37 2) 19 3) 32 4) 14 5) 26

8. What is the total number of students enrolled in all the three classes together?

- 1) 135 2) 164 3) 187 4) 142 5) None of these

9. Number of girls enrolled in only Dancing classes is what percent of the boys enrolled in the same? (rounded off to two digits after decimal)

- 1) 38.67 2) 35.71 3) 41.83 4) 28.62 5) None of these

10. What is the ratio of the number of girls enrolled in only Painting classes to the number of boys enrolled in the same?

- 1) 77:26 2) 21:73 3) 26:77 4) 73:21 5) None of these

Directions (11 - 16): Refer to the following information to answer the questions that follow

The population of a town in 1998, consisted of 45% men, 35% women and the remaining children of the children, 40% were: female and 60% male. Of the men, 10% were over the age of 60 years and 25% below the age of 40 years. Of the women, 20% were over the age of 60 years and an equal number were under 40 years of age. The number of men increased by 4% in 1999 and that of women increased by 6% The population of the town in 1998 was 2, 00,000.

11. What is the number of men in 1999?

- 1) 90,000 2) 92,000 3) 93,600 4) 94,200 5) None of these

12. What was the number of adults above the age of 60 years in 1998?

- 1) 20,000 2) 23,000 3) 26,000
4) Cannot be determined 5) None of these

13. What percentage of the population in 1999 consisted of children?

- 1) 16% 2) 20% 3) 13%
4) Cannot be determined 5) None of these

14. What percentage of the total females in 1998 were children.

- 1) 18.6% 2) 20% 3) 15.7%
4) Cannot be determined 5) None of these

15. What percentage of the population in 1998 are women below 40 years of age?

- 1) 20% 2) 15% 3) 7 % 4) 2% 5) None of these

16. What is the number of women in 1999?

- 1) 70,000 2) 74,200 3) 78, 100 4) 50, 000 5) None of these

Directions (17 - 22): Refer to the following Information to answer the question that follow
ABC Ltd. is operating in 4 businesses Viz. beverages, automobiles, refrigeration and electronics. The net capital allotted for these four each year is in proportion to the profit they generated in the previous year. Furthermore, the capital allotted to them in the previous year was ₹ 32 Crores, ₹ 38 crores, ₹41 crores and ₹45 crores respectively for beverages, automobiles, refrigeration and electronics. The net profit generated in the previous year was shared in the ratio as follows – 20%, 30%, 15% and 35%, in the same order. The profit this year has increased by 3%, 2%, 6% and 7% in the same order.
