

First Step Towards Programming

Workbook

Answer the following

1. List four primitive data types

-
-
-
-

2. Every statement in a program must be terminated by _____

3. Write a statement to declare a variable "*p_age*" of *int* type and assign a value 20? _____

4. What is the name of the java file containing the class name as **SampleProgram**? _____

5. Predict the output for the below code?

```

1  public class MyMain {
2      public static void main(String args []) {
3          int a = 10;
4          int b = 20;
5          System.out.println(a + b);
6      }
7  }
```

6. Predict the output for the below code?

```

1  public class Test {
2      public static void main(String args []) {
3          int a = 30;
4          int b = 70;
5          System.out.println("Result " + a + b);
6      }
7  }
```
